ZORHAN STILL INVINCIBLE.

WINS AGGREGATE STAKES FROM SPEARMINT AND ROYAL FLUSH IN EFFORTLESS FASHION.

HEAVY GOING LEADS TO UPSET OF FORM: SEVERAL OUTSIDERS RETURN SURPRISE DIVIDENDS.

MR. W. T. STANTON WINS POLO SCURRY ON TARGET.

[By "MORNING DEW"]

In spite of much that was written on Spearmint's chances against Zorhan in the Third Aggregate Stakes, the latter won in effortless fashion on Saturday. Mr. Harriman, who rode the favourite, timed his mount beautifully and never so much as urged the pony in the straight when it was still behind Spearmint a furlong from home. Zorhan simply romped in most confidently and proved once again that he is certainly the best animal in Hong Kong since the annual meeting.

The intermittent rain during the afternoon, coupled with the sodden state of the course, with its subsequent heavy going, was responsible for the failure of several favourites, resulting in big dividends. Shanghai Beau, Fifty Fifty, Mountain Oak and Silver Queen were some of the unexpected ones to turn up, and if the rain comes on again to-day there should be a goodly proportion of outsiders sharing the honours.

The attendance, in view of the uncompromising weather, left little to be desired, and a word of credit is due to the starter who so efficiently carried out his duties. The starting of races was not so much delayed as previously, and the latest race was finished well before 7 p.m. The Polo Pony Scurry went to Mr. Stanton, who was undoubtedly mounted on the best pony—Target.

Mr. Heard was the most successful jockey of the day, riding two winners, a second and three thirds in seven outings. Mr. Bulteel had two wins and Mr. Harriman a win and three second places.

FULL RESULTS, DESCRIPTION AND CASH SWEEP NUMBERS.

THE RACING.

Griffins Summer Handicap "A" Class.

There were six starters in the first race and Mike, the winner, was slightly more in demand than Windsor Stag and African Eve. The last-named was unplaced, being far from prominent at any stage of the race.

Orlando set a hot pace at the start, but after three furlongs, Windsor Stag took command, followed by Peppercorn. Mike waited until the village bend before making his effort. He joined Windsor Stag at the distance post and drew away a furlong from home. Peppercorn also passed Windsor Stag in the final stage of the race and all but caught up the winner.

Griffins Summer Handicap "B" Class.

Here, also, six ponies faced the starter and Empress Hall carried twice as many tickets as any other pony in the race. The Partridge set a hot pace, being followed closely by Blue Heaven, who, however, found the weight too much. Empress Hall took the lead in the village and was joined in the van by Abel, who romped home an easy winner, being a good three lengths ahead of Empress Hall. Blue Boy was third.

Sub-Griffins Summer Handicap "A" Class.

Fourteen ponies were saddled for this race and Thunderbolt (Mr. Harriman) was made a red-hot favourite. He was beaten out of a place! The favourite made the pace together with Tango (Mr. Charles), which, of course, was disastrous in view of the heavy going. Both faded out before the race was half over. Snafell was with the leaders for a good long way but faded out in the straight.

A furlong from home, Zephyr came out of the rack and looked all over a winner until challenged by Shanghai Beau. Zephyr was not equal to it and Shanghai Beau won by half a length. Done Again secured third place.

Third Aggregate Stakes.

Zorhan and Spearmint both started here, as predicted, together with five others, these being Royal Flush, Herodotus, New Year's Eve, Penhole and Peterkin. The latter named, as usual, could not be made to race and his presence in the field so far has meant nothing but a waste of valuable time!

Royal Flush set the pace for Spearmint, leading up to the Rock, when the latter took charge and led into the straight. Here Zorhan drew up with a leader and they raced home stride for stride, but while Mr. Heard used the whip on Spearmint, Mr. Harriman was content to let Zorhan run his own race. The latter got the verdict by half a length from Spearmint. Both were many lengths ahead of Royal Flush, who was third.

Sub-Griffins Summer Handicap "B" Class.

Osiris and Sonny Boy, favourite and second in demand, respectively, finished in that order in this race. Both horses were well ridden, but Osiris responded better in the last few yards and consequently won. Pumpkin was a good third, coming up strongly at the finish. Huachafu might have got a place here had he not been literally "squeezed" out when a furlong from home. Billiards, who was quite well backed, failed to get a place. The Duke of Milan was landed with a fairly bad start and remained inconspicuous throughout the race.

Sub-Griffins Summer Handicap "C" Class.

Mr. da Rosa on Mountain Oak scored his first victory here to pay his supporters \$35 each. Two other poorly-backed ponies, Sixty and Siamese Shop, filled the remaining places. The two best backed animals, Teuchit and Lonesome Night, failed badly, the former fading out of the race from the Rock, while the latter never showed anything like winning form. He has never been placed yet, but he seems to be a peculiarly well-fancied animal at every meeting.

June Handicap "A" Class.

Nationalist II. won here by two lengths from Carnival Eve, who was again three lengths ahead of Christmas Chimes. O-Moon was last, being entirely outclassed. Nationalist II. seemed to like the mud, and although Carnival Eve was sent to the front early, he failed to shake off the "Dynasty" animal, who won comfortably. Christmas Chimes did not like the going and made a disappointing show.

June Handicap "B" Class.

The favourite Grand Tattoo Eve (Mr. da Rosa) was beaten out of a place in this event, finishing among the trailers. Fair Sport and Town Hall, who were next in demand, dead-heat for second place, and it was left to Fifty-Fifty to carry away the honours. The winner was carrying top-weight, but the impost did not seem to trouble him, and he drew away from the field a furlong from home to win comfortably.

Bank Holiday Handicap.

Silver Queen, who had never won a race before, accounted for several well-tried performers here and paid the biggest dividend of the day—\$134.60. Chesapeake Bay, in spite of a poor getaway, managed second place and Imperial Hall was third. San Francisco and Young Pretender, two well-fancied candidates, were unplaced.

Polo Pony Scurry.

Nine ponies started here, but there was never any doubt as to the result. Target, as predicted, won, but Ploughman (Mr. Heard) put up a good race, and it was no discredit to Ploughman that he had to give ground to a griffin of last season.

ON MONDAYS

"He can live without love,
What is passion but pining?
But civilised man cannot live without
dining."
Owen Meredith.

He used to be rude about the cold joint and allude to it as "Ichabod." And poke the tomatoes about to find one that wasn't squashy, and leave the apple tart's pastry on his plate and talk about heavy handed cooks and...

Well you know how things used to be on Mondays... till you thought of that shattering retort, "All right, you buy me a Frigidaire then!"

Of course, he did in the end—and now Monday sees Ichabod metamorphosed into vol-au-vent, since cook's pastry has miraculously acquired a flaky lightness (only because he chills it in Frigidaire before popping it in the oven), and the salad always seems fresh picked, it's so cool and crisp, and everybody wants to know the secret of your household marketing, because they've "never eaten such tender steak, my dear" (which, of course, is due to Frigidaire again), and he swears Frigidaire would be worth twice its price if only for the difference it makes to beer, and...

we could go on for hours like this, but how about you having a Frigidaire of your own? The very latest models, fitted with Hydrator and Cold Control that produces frozen sweets, ice creams in a jiffy, can be installed in your kitchen for a very small sum. Fully automatic. Dead silent. Costs only a few cents a week to run. Start seeing about yours by asking

GROWTH OF CO-OPERATIVE SOCIETIES.

SOME AMAZING FIGURES.

[UNITED PRESS.]

Annual turn-overs of anywhere from Gold \$2,000,000,000 to Gold \$50,000,000,000 are now being made by the combined co-operative organizations all over the world. Statistics on the development of co-operatives have just been completed by the International Labour Bureau at Geneva.

They cover 728 international or national co-operatives in 48 different countries. The membership alone in these organizations is considerably over 75,000,000 of which some 35,000,000 are in the Soviet organizations alone. The statistics show that in 1923, 272 of the central co-operative organizations, other than banking and credit societies, had sales to their members of no less than Gold \$10,000,000,000. Additional figures also show that the total turn-over of 33 co-operative banks in 1928 was over Gold \$50,000,000,000.

An equally good showing was made by the co-operative credit societies. Seventy-four central organizations of these show a turn-over for 1928 of Gold \$18,500,000,000.

The figures on membership in co-operative organizations cover only 237 organizations in thirty-nine different countries, and show a total of 75,000,000. This, however, the Labour Bureau states is far from covering the total number of co-operators all over the world.

Some idea of the rate at which these are increasing is given by the statistics from Russia where from 1923 to 1928 the increase was 11 per cent.

BRITAIN BEHIND.

ONLY 750 "PLANES-COMPARED WITH FRANCE'S 1,310.

How Britain's air force compares with those of other countries was revealed by Mr. Montague in the House of Commons last month.

Based on the latest figures available, the present strength in first-line machines, compared with the strengths in 1925, is as follows:—

	1925	1929
Great Britain	750	1,310
France	1,310	2,150
U.S.A.	750	950
Italy	600	1,100

While Great Britain's air expenditure, compared with 1925, has been reduced by 2 per cent., that of France has gone up by 114 per cent., and the United States by 140 per cent.

EXPRESSES ON THE PHONE.

FROM CARRIAGE TO HOME OR OFFICE.

CANADA'S LEAD.

A remarkable railway innovation was introduced by the Canadian National Railways last month, on their famous Montreal-Chicago express, "International Ltd."

Passengers on the train are now able to telephone from the 30 miles an hour train to their homes and places of business.

People in Montreal, Toronto and other centres may establish telephonic communication with the train, whether it is in motion or standing.

"Last Frontier of Silence."

This conquest of what is called "the last frontier of silence"—the railway train—was inaugurated by Sir Henry Thornton, President of the National Railways.

While on the express between Montreal and Toronto he picked up a telephone and rang up Mr. Hoover, President of the United States.

As long ago as 1902 Sir Ernest Rutherford, the famous Oxford scientist, who was then at McGill University, demonstrated that communication could be set up between a station and a fast-moving train by means of electric waves.

The method now publicly used is

a form of broadcasting.

First "carried" along the telegraph line by the railway track, the message is then picked up by an aerial placed on the top of the coach containing the telephone apparatus.

Only the short gap between the telegraph line and the aerial is by "wireless." Telegraphists in Montreal call the system "wired wireless."

FIXING THE DOLLAR'S VALUE.

"SAVE BRITAIN'S 'FACE'!"

VIEWS FOR AND AGAINST A STABILISATION POLICY.

MORE than one business-man in Hong Kong has conceived the idea that the dollar should be stabilised, and that during the period of transition from the present to the future currency policy Shanghai methods of accountancy be adopted. Some ten days ago a scheme of this character was submitted to the *Daily Press*, since when we have obtained some comments upon the plan, which are reproduced below, together with a brief summary of our correspondent's proposals.

"F.V." Dollars.

Banks and business-houses in Shanghai keep accounts in dollars and taels—the latter a "currency" which does not, in fact, exist. It is suggested, then, that in Hong Kong we should also have two accounts—one in the present fluctuating currency issued by the banks, and the other in fixed-value notes issued by the Government, worth two shillings or one-tenth of a pound sterling, neither more nor less.

Importers would convert their sterling, franc, mark, yen, and other prices into Hong Kong "F.V." dollars, and it would be for their Chinese clients to calculate what these quotations represented in fluctuating silver currencies. Chinese merchants selling to local exporters would similarly quote in "F.V." dollars, enabling business inquiries from abroad to be definitely answered. Meanwhile, the Government's fixed-value paper dollar and subsidiary coins for 50, 20, 10 and 5 cents would become the only legal tender to settle all transactions—payment of taxes, rents, salaries, compradore's bills, bus and ferry fares. "Your ten-cent bus ride would still cost you ten cents, and no more; your tin of cigarettes would cost you just what you pay now; your \$1.35 tiffin would cost you precisely \$1.35. The only difference is that you would pay all these prices in F.V. dollars, but as you will have already received your salary in F.V. dollars, you will not mind doing that."

"Save Britain's 'Face'!"

Recognised throughout China as being worth two shillings at any time or place, the "F.V." dollar would "save Britain's face," declares our correspondent. How is this to be done, if it should be decided it should be done? There are many who fear that the establishment of a gold-basis dollar would seriously react upon the trade of the Colony. The "double accountancy" method, says its advocate, meets this objection. On a given date—as early as possible—Government paper dollars of fixed value would be issued, and become legal currency. In effect, exchange would jump from 1/3 or thereabouts to 2s. overnight. The existing bank notes and silver dollars would be converted into "F.V." notes at the current rate of the day. Those who preferred to keep their cash holdings in hopes of a rise in the silver market could do so. Those who wished to run two banking accounts—one for the "F.V." dollar and one for the fluctuating dollar—could do so for a period to be fixed—say, five to ten years. At any time during that limit old dollars could be converted into "F.V." dollars; if the silver market improves, and a person feels the time has arrived when he should convert his fluctuating dollars into the Government's 2s. currency, he would instruct his banker accordingly, but once converted there can be no re-conversion. When the time-limit expires, in 1933 or 1940—the fluctuating dollar must be converted; it is for the holder of them to decide whether conversion should take place before the compulsory date. After that, only the "F.V." dollar would remain, and by that time the world would know that a Hong Kong dollar was worth two shillings to-day, to-morrow, or this day twelve months.

Everybody Satisfied.

This arrangement, declares its advocate, meets the objection of those who fear the harmful effect of suddenly establishing a gold dollar in Hong Kong. It also meets the wishes of those who want to see an end of the exasperating fluctuations of the silver dollar. That the two currencies would actually remain in existence for five or ten years is doubtful. The greater convenience of the Government's "F.V." dollar would be so quickly appreciated that the public would soon show its preference for the fixed-value note. Employers and employees would both find the Government dollar more satisfactory to give and to receive. Shopkeepers would find it more convenient to mark their goods in Government dollar prices, and customers would

Britain's Credit Pledged.

So far as the backing of the Government dollar is concerned, it is suggested by our correspondent that a promise to pay two English shillings for every dollar, or a sovereign against a \$10 note, within three months of demand (as a safeguard against a run) would be quite sufficient. No huge reserves either of gold or silver would be necessary if it was known that the British Government guaranteed the issue.

A certain amount of bullion must be kept in the Colony to meet any reasonable demand for coin which might be made. The "within three months" clause is merely a precaution against being caught short in the event of a scare or panic. Bullion could be brought out to the Colony from London well within three months if necessity arose, but our correspondent believes that the mere fact that Great Britain's credit was pledged to support the Hong Kong dollar would be quite sufficient to satisfy the most nervous.

SOME CRITICAL COMMENTS.

The foregoing is a summary of the plan for stabilisation as put to us more than a week ago by a reader who believes relief could be obtained by some such scheme as that roughly outlined. Our correspondent is not a financier, nor does he pretend to be, but he believes the idea might be elaborated by those better acquainted with financial affairs into a workable plan. Below we give some comments which show how stabilisation is regarded from different angles.

The Investors' Point of View.

A. has money invested in local public companies which gives him \$6,000 a year of \$300 a month. He has always kept within this \$500, spending, say, 80 per cent. of his income. On July 1 he draws his usual \$500. His investments being in the old dollars the money he draws will be in those dollars. His monthly expenditure of \$400, however, becomes doubled, since all servants, shopkeepers, rent, and other expenses have to be paid in the new "F.V." dollar. He finds the change costs him \$300 more than he draws, whereas before he could save \$100 per month.

B. has investments not in shares but in landed property. He collects rent from his houses of \$500 a month, and spends \$400 on house-keeping. From July 1 he is paid in the "F.V." dollar and he pays out the new dollar. His position is not affected by the change. The balance of \$100 a month continues, but whereas before he saved \$100 of the cheaper money, he can now put aside \$100 of the better money. Who is paying the difference and how?

C. has a family in Hong Kong, but business takes him elsewhere. He has left a deposit with the bank, out of which his wife draws a regular allowance. That family's spending-power is cut down by half from July 1 if the "F.V." dollar is introduced.

D. is a widow drawing an allowance from an estate. What is the Government going to do for her if her allowance (which was just sufficient to meet her necessities) before the change-over is cut down by 50 per cent. or conversely, if her expenditure is increased by 100 per cent.?

Gambling In Exchange.

E. has two banking accounts of \$1,000 old money and \$1,000 new. He converts his old dollars into new when exchange is standing at 1/3d. A few weeks later he finds the old dollar touches 1/- and decides to change his new dollars back. He can take his "F.V." currency to a neighbouring port and buy silver dollars. Speculation in silver dollars will thus continue, and the buying power of a silver standard country—China—is not thereby improved. Moreover, it is possible that the new 2s. dollar might stand at a big premium in Canton and Macao, which again gives gamblers (and financiers) an opportunity to speculate in the so-called "fixed" dollars. There seems to be nothing to prevent this sort of thing. If that is so, then the fixed value is merely a farce so far as it concerns places outside the Colony. Will this sort of thing improve the Colony's business? If not, what is there to prevent it?

F. is a dabbler in exchange. He secures \$100. With this sterling he buys old money at 1/- which gives him \$200. He waits for a slight rise in the exchange, when he goes back into sterling and back again to the fixed-value dollar, probably making \$100 new money in the process, which he can repeat

from time to time. Is not this another form of speculation? How is this going to help business?

What If Silver Rises?

G. has lived in Hong Kong all his life, and has therefore been accustomed to look at the 2s. dollar (except during 1929-30) as absurdly below normal. Would not the fixing of the dollar at 2s. deprive him of all further prospects of enjoying the amenities afforded during former years by the higher dollar? Moreover, it is possible that silver may go up, and a silver dollar be worth 3/-. Where would the fixed dollar be then? Would not Canton and other Chinese ports buy direct from abroad? Would not a 2s. dollar then put Hong Kong absolutely out of business? For example—An article costing £10 in England in Hong Kong would cost \$100; in Canton it would cost (at 3/-) \$36.66. Both are paying for it in silver dollars!

How About Insurance?

H. has a life-assurance policy for \$10,000 Hong Kong currency. Will his widow get ten thousand shillings or ten thousand florins? If he has a houseful of furniture insured for \$5,000, and gets burned out, what does he get—fixed or fluctuating dollars? With furniture now being sold at "F.V." prices, a claim met in old dollars would not help him much.

THE CRUX OF THE QUESTION.

In presenting our correspondent's plan and the comments made upon it, we would remind readers that our own views on the subject were set out in an editorial article last Saturday. Stabilisation of the dollar is possible, of that there is no doubt, but that it would be beneficial to the Colony—economic conditions being what they are—is questionable. In our opinion, the stabilising of the Hong Kong dollar would be equivalent to stabilising the currency of China, and that is too big a task for this Colony to attempt. In conclusion, we need only urge once more that the report of the Currency Commission should be published at an early date.

CHINESE PICTURES.

INTERESTING EXHIBITION.

The spring exhibition of pictures (Chinese) by the students of the Lai Ching Art College, Wong Nei Cheong Road, Happy Valley, opened on Saturday, and will remain open for four days.

I have been privileged to view the pictures as they were being arranged, and in the hope of interesting the public in the excellent art work that is being done in the schools of the Colony, I describe a few of the more outstanding pictures; a task very difficult where so many are of great merit. There are about 140 drawings on show, embracing the work of students of six months to three years' study.

Design and Execution.

A large number are in Chinese ink, a medium in which the Chinese excel, and are singularly gifted in the expression of colour values, the tones being so well rendered that the loss of the colour itself is not felt, particularly in the flower and bird studies.

In design, too, some of the pictures are of great beauty; the branch of a tree, a spray of foliage, or a flowering shrub provides the simple material from which they evolve such charming, decorative panels.

Decorative Effect.

It is, of course, from the purely decorative point of view and standards that these pictures must be looked at and judged, and not from the literal and imitative viewpoint of Western ideas.

To the Western mind the subject matter of these pictures appears to be inadequate, and too unimportant in nature to perpetuate in pictorial form; but Chinese art being essentially lyrical and decorative is not very much concerned with, nor does it value very highly, naturalistic or imitative form.

It might be of interest to note that the most progressive of modern Western artists, in fact, the decorative value of a picture takes precedence over subject matter.

Visitors Welcomed.

Students of Western art will find much of interest and value in these purely decorative pictures of Chinese art, and it is hoped that many will give encouragement by attending the show. The public is cordially invited. European visitors will find several young people in attendance to escort them round the exhibition, and who will gladly give any information required.

The exhibition is open from 10 a.m. to 5 p.m. and from 7 p.m. to 9 p.m.

Some of the Exhibits.

The group of pictures by the Principal, Mr. Pow, Nos. 1-9, is work of remarkable technique.

No. 1, Evening Scene; No. 2, Wild Duck, very lovely in design and motif; No. 7, Rainy Night, a fine drawing, the bamboo being well done. No. 28, by the same artist, is also very decorative.

No. 28, "Between Sea and Sky," by Miss Kong Sau Wah, is a fine design.

No. 33, "The Weeping Lady," by Mr. Wong Ping Kik. The design of this picture is very quaint, but the painting of the rain-soaked foliage is fine.

No. 103, "Chrysanthemums," by Miss Chan Woo, is a fine example of Chinese ink drawing; Nos. 102, and 104 by this artist are also very decorative.

No. 22, "A Rainy Spring," by Miss Ho Hung Lai, is an excellent design and very free in drawing.

No. 19, "Cat and Vine," by Miss Chow Chi Yin, is good, the foliage in this picture being very well done.

No. 12, "A Carp," by Miss Yam Sui Wei, a student of less than one year. This picture is one of the best in the show.

No. 107, "Cock and Hen," by Miss Fung Miu Ching, is good, the plumage of the birds, especially the hen, being very fine.

Nos. 31, 32, 34, "Landscapes," by Mr. Yuen Ngan Ming, are all good, No. 32 being the best.

No. 125, "Crow and Willow Tree," by Miss Yeung So Ying, is a powerful design and bold in drawing.

No. 38, "Chinese Legend," by Miss Chan Chun Sang.

Nos. 133 and 134, "Flowers," by Miss Lai Chit Fai and Miss Kan Lui Lin; the foliage in these pictures being excellent.

Nos. 67 and 113, "Spring Flowers," by Messrs. Wai Nan Lok and Wai Man Wei, students of a few months' training, shows great promise.

No. 47, "Chrysanthemums," by Miss Kwong Suet Ying, and No. 105, "Plums and Blue Bird," by Miss Tse Tong Tai, a student of a few months, is very fine, especially the bird in No. 105.

Good work is exhibited by Messrs. Fung Siu Hong, Sin Hin Wing, Leung Kam Ming, Lee Tai So, Yu Fook Chuen, Tsang Nam Keung, Mui Fung, Tam King Wah, Poon Sha Fung, and the Misses Leung Sin Yee, Leung Cheung Hing, Chan Wah Yuk, San Yuen Wan, Leung Man So, Yu Man Lay, Siu Sui Lam.

In addition to the pictures there is a small but excellent display of embroidery and silk pictures by the Misses Chan Chun Sang, Kan Lui Lin, Leung Cheung Hing, Yau Siu Wei, Leung Shin Yee, Kwong Shue Ying, and Au Wat Tin, trained under Mrs. Pow, who designed much of the work.

LESSON SERMON.

FIRST CHURCH OF CHRIST, SCIENTIST, HONG KONG.

"God the only cause and creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist on Sunday, June 7.

The Golden Text was "All nations whom thou hast made shall come and worship before thee, O Lord, and glorify thy name. For thou art great, and doest wondrous things: thou art God alone." (Ps. 86: 9, 10).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The works of the Lord are great, sought out of all them that have pleasure therein. His work is honourable and mighty, and his judgments are true and upright." (Ps. 111: 2, 3, 7, 8).

(Continued at foot of next column.)

THE SILVER SCREEN.

MIRTH AND MELODY.

Something out of the ordinary is showing at the Queen's Theatre today, "The Shannons of Broadway," a screen representation of a very popular comedy which ran for nearly ten months in New York, and is "still running" on tour. There are some very bright vocal numbers, and the dialogue is just the merry sort of chat for a holiday show. The Gleasons are first-class comedy actors, and they are supported by several other members of the original stage cast. A very jolly show, which is only to be seen to-day, as to-morrow there is a change of programme at the Queen's, when "Mother Knows Best" will be shown.

When those in charge of the Movietone at the Fox Studios decide to reproduce the artistry of a pianist they have two featured players who qualify in the concert pianist class. One is Lionel Barrymore, seen in Richard Ross's "Road House," and the other is Barry Norton, handsome juvenile, playing in "Mother Knows Best," which will come to Queen's Theatre on Tuesday, and rated as the most versatile young actor in filmland. Norton is an expert fencer, a brilliant tennis player, a corking amateur boxer, and a real musician. The latter talent helped him in creating the rôle of a vaudeville single in "Mother Knows Best," a young chap who does a pianologue in the three-day theatre, and brings the first romance of Madge Bellamy, as "Sally Quail," has in her life.

SANITARY BOARD AND FLUSH SYSTEM.

QUESTIONS TO BE ASKED TO-MORROW.

At the fortnightly meeting of the Sanitary Board to-morrow, Mr. Wong Kwong Tin, in accordance with notice given at the last meeting, will put the following resolutions:

"That this Board regrets the necessity for the continuance of the present crude bucket system of removing night-soil and recommends that application for water closets be sanctioned on the following conditions being observed:

- (1) If premises affected have not been ordered by the Building Authority to be demolished.
- (2) If there shall be (other than in the Peak District) an independent and adequate supply of water for the purpose.
- (3) If the applicant undertakes to comply with the existing regulations to the manner of construction and maintenance.

A letter from the Government relative to the appointment of Mr. F. C. Hall to be a member of the Sanitary Board in place of Lieut. Col. G. D. Myles, O.B.E., R.A.M.C., will be placed before the meeting.

The Lesson-Sermon also included the following passages from the following passages from the "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The human belief will be attaining diviner conceptions, and the immortal and perfect model of God's creation will finally be seen as the only true conception of being." (p. 200).

IRONSIDES LAUDED FOR BEHAVIOUR.

MERCHANTS AND GENTRY NOT MOLESTED.

CROMWELLIAN AUSTERITY OF REBEL CHIEFTAIN.

Following the capture of Changsha, the "Ironsides" and the Kwangsi troops are now heading towards Yochow, to the north of Changsha, on the Wuchang-Changsha Railway. Serious fighting is expected to occur in the immediate future in Yochow, to which place the loyal Hunan troops have retreated and where the latter and a section of the Nanking troops, numbering in all over 40,000, are making a stand. It is likely that unless reinforcements come in time, the loyal troops will not be able to defend the place.

With the fall of the Hunan capital, the seat of the Hunan Provincial Government is now in Yochow, and the Governor, General Ho Chien, has wired to the Nanking Government to that effect.

Elaborate defensive works have been erected at Sinit, some 60 li south of Yochow. More Nanking troops and gunboats are expected in Yochow shortly, and the cadets of the Military School of Wuhan have been rushed there.

A portion of the Kwangsi troops have been dispatched to invade Kiangsi, with Nanchang, the capital of that province, and Kiukiang, a port on the Yangtze, as their objectives. The Kiangsi Governor, General Lu Ti Ping, has rushed troops to Pinghsing to resist them. The population of Wuhan (Wuchang, Hankow and Hanyang) have become more panic-stricken on learning of the fall of Changsha. The foreign concessions in Hankow are overcrowded and there is scarcely any house unoccupied. No household is allowed to remove to the Concessions at present. The Chinese authorities in Wuhan have enforced rigid martial law.

Rebels Popular.

A report of foreign origin from Changsha states that peace and order are well maintained by the "Ironsides," whose behaviour is said to be good. They are alleged to be well disciplined, and merchants and residents are not disturbed in any way. Merchants have declared that the new troops are much more popular than Ho Chien's men.

Chang Fat Fui, the "Ironside" chieftain, is said to have told his men, on their way to Changsha from Kwangsi, not to shave or cut their hair until Changsha was captured. He travelled on foot all the way instead of riding on horseback or in a sedan chair. He ate the same food and dresses exactly as his soldiers, whom he treats with great kindness. The "Ironsides" are so well-trained, adds the report, that they are worthy of their reputation.

The military situation in the North has not developed very much during the past two days. An unconfirmed report from a Japanese source states that Tsinan, the Shantung capital, has fallen into the hands of the Northerners.

During the past two days, the exchange of gunfire across the Yellow River at Lokow has continued. Besides attacking Tsinan, the Shantung troops are pressing upon the Tsinan-Kiaochow Railway.

The U.S. Consulate has instructed American residents to evacuate the city.

Trains on the Tientsin-Pukow Railway run only as far as Tsinan, to the south of Tsinan.

Hospitals Full.

The military hospitals in Nanking are overcrowded, and numerous wounded troops are being rushed from the front daily. Hundreds of wounded troops have been taken to Hangchow for accommodation.

Yen Hsi San is reported to be in Pingyuan to direct military operations.

It is reported in Nanking that the Nationalists on the Lunghai Railway line have captured Lanfeng. The authenticity of the report is questionable.

Over 1,000 senior students of the Nanking Military School have been rushed to the front for service by General Chiang's order.

Chiang, who is staying at Kwei-teh, told pressmen that the Nationalists had the situation well in hand, and that he was confident that the main force of the rebels would be routed in a month. After that, the Government would turn attention to the determination of the rebels in Hunan, who were not likely to do anything to affect the general situation, he added.

Victories Claimed.

The Nationalists on the Peking-Hankow Railway line also claim minor victories. They allege that they are besieging Hsuehchang, and a section of the troops have been (Continued at foot of next column.)

ATTACKED BY A SHARK

TAIPO FISHERMAN LOSES RIGHT ARM

An unusual accident occurred on Saturday when two fishermen in the course of their occupation were called upon to deal with a shark.

The fact that sharks abound in these waters was proved when the story was related to the police at Taiipo, and they had to render assistance to one of the unfortunate men.

The two men, Ho Sing, 50 years old, and his nephew, Ho Sang, were fishing in a small boat at Pah Sha Au, Taiipo. At about 1 o'clock in the afternoon they hooked a shark, and with some difficulty they dragged it alongside the boat and almost over the side.

Ho Sang, the younger man, reached out in an attempt to gaff the shark, when it suddenly snapped off his right arm below the elbow. In the confusion that followed the shark made its escape with the man's hand.

First aid was rendered to the unfortunate man by the police, and he was sent to the Kwong Wah Hospital in Kowloon.

MR. R. M. DYER, C.B.E.

HONOURED BY HONG KONG FOOTBALL ASSOCIATION.

When the Council of the Hong Kong Football Association met on Friday, Mr. J. Ormiston, who was in the chair, complimented Mr. R. M. Dyer on behalf of the Association on his being honoured by His Majesty the King with the C.B.E.

Mr. Ormiston said:—"Before proceeding with the business of the meeting, it is my pleasure, on behalf of the Council, to extend our hearty congratulations to our President and esteemed friend, Mr. R. M. Dyer, C.B.E., on the great honour conferred upon him by H.M. the King."

Mr. Dyer richly deserves the decoration, as he is a most worthy citizen and has devoted much of his valuable time to public benefit, to the University of Hong Kong and numerous other institutions. In the realm of sport, particularly in Soccer, which we control, he deserves our unqualified thanks and appreciation. What he has done for the Services and charitable organisations in this Colony, he alone knows. We trust our President will long be spared to enjoy the distinction bestowed upon him. (Applause.)

SEDITIONOUS PAMPHLETS ON THE PEAK.

POLICE WITHDRAW CHARGE AGAINST CHINESE.

Defending a Chinese, who was charged with possession of seditious literature on Jardine's Bridge, the Peak, on May 30, Mr. M. K. Lo appeared before Mr. D. E. Lindsell at the Central Magistracy on Saturday, and asked for a further remission to enable him to take instructions from his client.

The Magistrate replied, however, that he had remanded the defendant in order that further translations of the literature in question could be obtained to enable the prosecution to prove that the documents were seditious. Mr. Lindsell remarked that there appeared to be no evidence against the defendant, as he was not satisfied with the statement of the constable that the accused had himself thrown the papers on the ground. The question as to whether or not the documents were seditious did not arise.

Detective Sergeant O'Donovan told the Magistrate that the prosecution was not now prepared to prove that the documents were seditious.

The defendant was discharged.

rushed to attack Hsuehchang. General Ho Cheng Chun, the officer commanding the troops on this sector, in a wire to Hankow, said that during the air raid by the Nanking aeroplanes, Pan Chung Hsiu, a rebel general, was killed. He added that Hsuehchang was expected to fall before long.

According to a wire from Tientsin, Sun Chuan Pang has arrived there from Mukden and will soon proceed to the front to interview Yen Hsi San.

CHINESE BATHING CLUB OPENED.

SIR SHOU-SON CHOW'S RACY SPEECH.

HOW OLD SEA MONSTERS DISCOURAGED SPORT

The ever increasing interest shown by Chinese in aquatic sports, as well as other forms of sport, was again demonstrated on Saturday, when, despite the drizzle that prevailed practically the whole afternoon, a crowd of several thousands thronged the Chinese Bathing Club on the occasion of the opening of its clubhouse.

Members and guests assembled on Shaokwan Road opposite the clubhouse, and punctually at 3 p.m. the Hon. Sir Shou-son Chow, Kt., C.M.G., arrived and was greeted by the chairman, Mr. Chan Chi Lan, and members of the committee of the Club. The chairman handed over a key to Sir Shou-son, who proceeded to open the clubhouse. Members and guests then gradually streamed into the premises, while music was being supplied by the Chung Sing Benevolent Society's Band, and soon the beautiful clubhouse, which was gaily decorated with flags, bunting and ferns, was packed to its utmost capacity.

The chairman, Mr. Chan Chi Lan, thanked Sir Shou-son Chow and the guests for their presence and then gave a brief outline of the history of the Club. He referred to the establishment of the Chinese Bathing Club under auspices of the Chinese Recreation Club in 1911, when the Chinese community began to realise the importance of sport for the cultivation of friendship and health in society. Mr. Chan drew attention to the reorganization of the Chinese Bathing Club in 1922, when it began to prosper under their energetic hon. secretary, Mr. Wong Kam Ying. He remarked that the efforts of Mr. Wong Kam Ying and other supporters of the Club, in conducting a campaign to collect funds, had made possible the erection of a new pavilion in such a short space of time.

Then and Now.

Thanking the Chairman and members for inviting him to open the clubhouse, the Hon. Sir Shou-son Chow, in an extremely humorous speech, touched on the rapid strides that had been made by the Chinese lately in the realm of sport. Not so very long ago, said Sir Shou-son, sport in any form was looked upon with disapproval. For a student to mention it in front of his teacher was to invite the birch.

Games were discouraged in his younger days, and the fear of monogamy in the sea was usually enough to nerve those who wanted to have a "dip." The remaining undaunted few, who were inclined to swimming, had to do it by stealth. It should not be surprising, therefore, said Sir Shou-son, that the vision of such a beautiful structure, such as he had opened, could not in those days enter even into his dreams.

Changes, however, had now been effected, and the value of recreation was recognised. Not only was the present generation allowed to participate in games, but they were also encouraged to indulge in them, and for that purpose the clubhouse was opened. Sir Shou-son remarked that he was confident that not even a thousand sea monsters could prevent members of the Chinese Bathing Club from swimming at the present time.

The hon. secretary, Mr. Wong Kam Ying, also addressed the gathering and thanked the numerous donors of subscriptions and presents.

It was interesting to note that among the presents received, one was from a sister club, the South China Athletic Association.

Aquatic Display.

Those present were afforded proof of the wonderful progress made, referred to by their president, Sir Shou-son Chow, when a striking display of aquatic was given.

The programme lasted over 15 hours and consisted of some quite unusual items. Swimming with tied limbs, one member did two lengths with his hands tied behind his back and his feet bound together. The swimmer was greeted with much applause on completion of his feat. Another interesting (Continued on next column.)

Constant supply in all districts during May, 1930.

1930.—From May 1 to 31, 1930, 12 hours' supply (6 a.m. to 6 p.m.) was given to all Riber Main Districts (principal mains closed 6 p.m. to 6 a.m.) with the exception of the area North of Queen's Road between Murray Road and Eastern Street, where a constant supply was maintained during the whole month.

The Government Analyst's reports show that the quality of the water is satisfactory.

The total rainfall to May 31:—1929, 10.15 inches; 1930, 19.17 ins.

item was "Long Fellow," which was performed by two swimmers. Complete rhythm between the performers gave the impression that a huge man was swimming. One of the swimmers used his hands and kept his legs still, while the other held the legs of his partner and chopped the water with his legs. Other fancy swimming, as well as diving, was shown, and an exhibition of various modern strokes particularly delighted the audience.

While the display was proceeding, tea was served on the spacious verandah of the clubhouse.

The clubhouse, erected at a cost of \$20,000, is one-storied and should be capable of accommodating several hundred swimmers at a time. It has a surface area of about 8,300 square feet.

On both sides of the verandah are bridges running out into the sea, thus forming a hollow square for members to swim. Behind the verandahs are the men and women's dressing rooms and shower baths.

A pleasing feature of note are the six large fresh water storage tanks, which take their supplies from the streams that run in the hills opposite the clubhouse. In design the clubhouse is not unlike that of the South China Athletic Association, and the management is to be congratulated on the construction of this beautiful semi-permanent structure.

Large Membership.

The Chinese Bathing Club has about 1,500 members, including over 100 life members, and has on its books a large number of Chinese gentlemen, including His Excellency General Chan Ming Shu, Civil Governor of Kwangtung, who is Hon. President of the Club, Admiral Chan Chak, Commander-in-Chief of the Canton Navy, General Chan Hing Wan, Mr. Lam Wan Kai, Mayor of Canton City, and Sir Shou-son Chow, President of the Club.

THE CHINESE EGG.

AN ODE TO THE AGED.

["Chinese eggs, when they arrive in this country, do not often enjoy the respect due to their years. There is a deep insensibility about eggs which makes them as intellectually congenial to wise men as it makes them commercially profitable to grocers."—The Times, London.]

How perfectly innocuous. A simple egg may be! An oval dome up-ended on a spherical rotundity.

However, though so innocent, an egg can work provokingly, and lay below the belt, intent on acting, as 'twere, jokingly.

And lay you out most painfully. Upon your back for a week or more, And treat you most disdainfully, Leaving you weak, your tummy sore.

In England, when an egg is poor You simply throw it on the floor, Or, if it's bad, and you're ill-bred, You shy it at the waiter's head.

But here you simply must not rage Because an egg shows signs of age; It's gastronomically fit If you can get in a yard of it.

It may be halved, for you to see The emblem of mortality, Or in a Welsh rarebit refuted A sad, notorious repute.

So when you enter Ahmed Beg's And view the menu full of eggs Described in French or Portuguese, And all you have to do is choose,

Let lust of flesh and lust of eye Not loose restraint, and ere you damn Your abdomen, take warning by The quivering of your diaphragm.

For men may come and men may go, Discretion learning never, While Empire's fall and cockerels crow, The egg goes on for ever.

MAXIMUM PENALTY FOR KIDNAPPERS.

CLEVER ACTION BY DETECTIVE.

Two Chinese women were convicted by Mr. T. S. Whyte-Smith at Kowloon Magistracy on Saturday of kidnapping two boys and were sentenced to the maximum penalty of one year's hard labour.

The two women were stopped by a Chinese detective at the Yau-mat Police Station, and as they failed to give a satisfactory explanation of the two boys, they were taken to the Police Station, where they confessed that they had been given \$10 each by two men to take the boys to Shum Chun.

PEACE OF THE EAST.

PREMIER'S SON ON HIS RECENT TOUR.

Mr. Malcolm MacDonald, the Prime Minister's son, in an address to the League of Nations Union, at Oxford, last month, said that at the back of the Japanese mind there was always the possibility of war with America. "Undoubtedly," he said, "the Naval Conference did something to dispel that idea, and I am quite certain that friendship between Japan and America has been greatly strengthened as the result of the naval agreement. I am told by many people that the Japanese nation is soon going to crash like a pack of cards, but I do not believe it. The Japanese have a colossal vitality, and they believe in themselves. It is a remarkable thing that a Power naturally so militaristic and imperialistic should be perhaps as great a friend to the League of Nations as any in the world. The Japanese have a great power of adapting themselves to circumstances, and they are adapting themselves to the beliefs of the modern world. But if the League were to break down Japan would very swiftly revert to her natural role, and would probably become the dominating military Power of the Far East, which many people believe to be her destiny."

Mr. MacDonald said that on his recent visit to China he had been impressed by the embittered relations existing between the Japanese and Chinese in Manchuria. "I have never been in an atmosphere where one was felt so much that one was very close to war. The Chinese complain bitterly that the Japanese in control of the South Manchurian Railway are breaking the treaty every day by arresting Chinese outside the railway zone and by exercising political propaganda in the area under their control. They also complain that the Chinese are allowed no share in the economic development of Manchuria, and accuse the Japanese of an ambition to annex Manchuria."

Mr. MacDonald suggested that it would be very desirable to increase the influence of the League of Nations in the Pacific by holding a meeting of the League Assembly either in China or in Japan.

HONG KONG, JUNE 9, 1930.

JAPANESE IN CHINA'S ARMIES.

A RECENT message from Tokyo stated that the War Office had suspended the arrangement made with the Nanking Government to send Japanese instructors to the Military College in Nanking. The reason given for this change of plan was the development in China of a military situation "adverse to the Nanking Government." Were the situation not "adverse," would the Japanese officers have been sent to assist the triumphant advance of the Nanking forces? If so, an interesting situation would have arisen, because the Chinese military leaders in Manchuria and North China have decided to adopt Japanese military methods and to turn over the direction of their military schools to Japanese experts.

A considerable number of Japanese officers have arrived in Peking and Mukden recently. There are now five Japanese instructors in the Military Staff College at Peking, and seven Japanese aviation officers have recently been detailed to the Aviation School at Mukden. These appointments were especially significant because German instructors were first used in the Peking school, and the Mukden Aviation School issued an announcement recently that French instructors would be engaged. It now seems that Japanese have been substituted in both cases.

Several German officers joined the Peking Military School. It was reported that they had been brought out by General CHIANG KAI-SHEK, who was anxious to keep close control over the military schools in the North as well as the South, but when the break came with Nanking, the German instructors were in an awkward position. They had been employed by CHIANG, but were now working for a group opposed to him. The Northern militarists appeared willing to let the Germans continue as instructors, but several of them resigned, because they said the discipline was so bad in the school that they could do no work. Some of the officers have returned to Germany, while others are remaining for the time being, but doing no work. Japanese officers have taken over their classes in some cases.

General CHANG HSEUH LIANG, the Governor of Manchuria, is said to be very anxious to develop his aviation branch. He has seen how effective airplanes can be against Chinese armies—both in the Sino-Russian controversy last summer, and in the advantage airplanes gave to CHIANG KAI-SHEK. There is little doubt that he will spend money freely to build up the Military Aviation School at Mukden. Selection of Japanese experts is probably wise. Japan has made rapid strides recently in aviation, and has many competent men available for such instruction. It is

much easier to obtain Japanese experts than European, the distance from Mukden being so small, and doubtless Japanese can be obtained cheaper, and are more likely to stay as long as is necessary to establish adequate courses of instruction.

ANTI-PIRACY GUARDS.

British shipping interests in the East are puzzled over the British Government's attitude regarding the provision of protection against pirates. It will be recalled that the Government announced its decision to cease providing British troops as anti-piracy guards as from March 31, but in response to representations, the withdrawal of the military was postponed pending the training at Hong Kong of a suitable personnel to undertake the work at the shipowners' expense. It now turns out the Government expects the shipowners to pay for the white protection provided in the interim. The question of payment has never previously been mooted, and the matter has been the subject of correspondence between the War Office, the Hong Kong authorities and the China Navigation Company. According to a letter to the War Office, dated May 6, the Company pay their share of the cost of the Army in English income-tax at the rate of 1s. 6d. in the £; they pay a second time for that part of the Army detailed for the protection of British trade and ships on the China Coast, and they pay a third time for pensions, liabilities, etc., for it seems that from April 1 until the end of May they are liable to be charged with gratuities or pensions and compensations to widows and dependants in the event of casualties occurring among these guards.

It may be added that British fishing fleets have the protection of naval patrols without specially paying for them, and British ships on the North Atlantic enjoy the benefits of an ice-patrol to warn them of icebergs without being charged up for the service.

ALONE HE DID IT!

If truth is not stranger than fiction, then O. HENRY and others will do some turning in their graves when they hear of ANTOINE MAILLET, the only man on record who ever defeated an army single-handed. Some weeks ago, MAILLET, a French war ace, undertook a little job for King Tafari Makonnen, of Ethiopia. It seems that a certain Ras Gugsa Olie, also a former husband of the former Empress JUDITH, craved to be king, and with that end in view drew up somewhat of an army which offered battle to the loyal troops not far from Addis Ababa, the capital. The King asked MAILLET what he could do, and MAILLET said he would see.

A few days later the intrepid flyer went out over the lonely mountains and treacherous ravines, not to mention the impossible jungles and forests, teeming with lions, elephants, crocodiles, snakes, leopards, panthers, and hyenas. When he sighted the enemy he dropped his Majesty's regards. Those who were not killed ran. The King, learning of the news, was overcome with remorse at the demise of one of his beloved wife's best boy friends, but nevertheless a reception befitting a hero was prepared at Addis for MAILLET, who returned untroubled to discover that he had earned a place in history alongside LAFAYETTE, NAPOLEON, and some of the other better-known French fighters.

MAILLET's life was not uneventful during the world war. He brought down a dozen German planes, was captured, escaped, won the Medaille Militaire, and four other decorations, was wounded but continued in active service to the last. The war over, he re-enlisted with the French troops in Northern Africa, where he served until 1923—a brilliant career covering fifteen years. It was only when the African campaigns began to pall, and there was no further room for his real fighting with the French army, that he conceived the idea of becoming a soldier of fortune. It was in such a capacity, with the high-sounding title of Director of Aviation for the Abyssinian Army (his being the only plane), that he won the Battle of the Lions and Boas Constructors for good King TAFARI MAKONEN.

Another of the "must nots" imposed upon the touring Australian cricketers has been revealed. A. Hurwood, T. W. Hall, and C. W. Hall, and C. W. Walker, with the manager of the team (Mr. W. L. Kelly) and the treasurer (Mr. T. Howard) were the guests of the Leicestershire Aero Club at 'Desford Aerodrome.' The pilots were ready, the players were keen, but Mr. Kelly said that, by a special resolution of the Board of Control, the Australians were not allowed to travel by air. So the cricketers had the unsatisfying experience of watching others go up.

Replying to Conservative questions in the House of Commons on May 31, Mr. Graham, President of the Board of Trade, admitted that his Department had granted permits for the export to Russia of sixty tanks, including twenty 6-ton and twenty 12-ton. Mr. Graham declared that failing permission from the British Government the Soviets would have placed the order elsewhere.

After a round of the dance halls in Cremona, Italy, two well-dressed young men hailed a taxicab and asked to be driven to the town gaol. The driver was surprised to see the men enter the prison as if they lived there. He spoke of the happening and the police authorities discovered that one of the young men, Carlo Parisetti, was a prisoner in the gaol, and the other, Mario Pasetti, was his warden. Both were very fond of dancing, and Parisetti persuaded his guard to accompany him to dances. At the trial Parisetti was acquitted, and the warden sentenced to a month's suspended imprisonment.

Capt. Arthur Page, a marine pilot, on May 31, flew a Curtiss Hawk marine aeroplane to win the annual Curtiss Marine Trophy race on the Potomac river. The race is over a 100-mile course, and Captain Page averaged a speed of 164 miles an hour for the distance.

Details of inquests in London during 1929, contained in an L.C.C. report, show that 2,137 persons were accidentally killed, compared with 1,910 in 1927. There was a record number of 43,415 calls on the London Ambulance Service, this figure being 3,178 more than the previous record of 1927. The busiest hour of the day was between 10 p.m. and 11 p.m., and the second busiest between 3 p.m. and 4 p.m. The slackest period was between midnight and 6 a.m.

A Munich engineer has invented an insurance machine. When the requisite premium—from one penny to sixpence—is inserted and a finger pressed upon a special roll a receipt is received giving the date and exact time of issue, and the sum for which insured. The fingerprint is recorded on the copy of this receipt which is printed upon a roll inside the machine, and thus any possibility of misuse or fraud is obviated. It is intended to install such machines on all railway stations throughout Germany.

The U.S. Coast Guard at Provincetown, R.I., reported that 23 members of the crew of the schooner Progress, which was buried in sand eight miles from Race Point, have been rescued.

Senator Peter Norbeck of South Dakota has been appointed to head a sub-committee of the Senate Committee on Banking, for the purpose of investigating the national banking and Federal Reserve systems. Senator Carter Glass of Virginia is chairman of the Banking Committee, other members being Senators Walcott, Townsend, Bratton and Norbeck. The investigation will begin next autumn.

The marriage of Miss Babe Daniels and Mr. Ben Lyon, the film players, is expected to take place in Hollywood on June 14. The engagement was announced at the beginning of 1929. Miss Daniels was born at Dallas, Texas. Her father was a Scot and her mother Spanish. She appeared in "Rio Rita," her first "talkie." Mr. Ben Lyon, who is 30, was born at Atlanta, Georgia.

A Harrow motor-cyclist, accused of dangerous driving at Watford Police Court was stated to have artificial legs. His right leg was off below the knee and the left one above the knee. When involved in a collision he had two pillion passengers. For the defence it was stated that the footbrake of a motor-cycle was on the side where defendant's leg was off below the knee, and he could put as much pressure on the brake pedal as anyone. The Bench dismissed the case.

The Minister of Labour in Berlin has announced that 9,000 million marks must be found by the Reichstag to relieve the unemployed in Germany, who now total two million.

A Munich surgeon, Dr. Ernst Nitzsche, was sued by a patient whose appendix he removed without having previously obtained her consent during the course of an operation for another purpose. She declared that her appendix had never given her the slightest trouble, and although the surgeon contended that she was better without it, the Munich court awarded her £40 damages.

After a brief effort at what was to have been a non-stop refueling flight to Buenos Aires from Hartford, Conn., Captain Herbert Partridge's aeroplane was forced down at Roosevelt Field, L.I., on May 30 because of insufficient oil pressure to the engine bearings.

An inquest was recently held in the parish where, 800 years ago, said Mr. Gregory Whyley, the coroner, there was held the first inquest recorded in England. This was at Barford (Beds), and the subject of the first inquest was a boy, who had fallen into a well. The inquiry was the first held in the parish for 13 years. It concerned the victim of a road accident.

Mrs. Joseph Schildkraut (née Bartlett), the actress, has obtained a divorce from Mr. Joseph Schildkraut, the film actor, against whom she alleged cruelty. Joseph Schildkraut has spent almost his whole life in America. He was Lillian Gish's aristocratic lover in "Orphans of the Storm," in which he was a handsome figure.

Viscount Willingdon, the Governor-General of Canada, has approved the Bill which will prohibit the export of liquor from Canada. This action is taken as a measure of co-operation with United States authorities in prohibition enforcement.

Professor von Karmann, of the Technical High School at Aix-la-Chapelle, flying in an aeroplane over Los Angeles, in California, on May 30 conversed for ten minutes, by wireless telephone, with Heer Milch, the Director of Luft Hansa, in Berlin. The latter used the ordinary telephone in his office.

Germany, through her diplomatic representative in Warsaw, has lodged a formal protest against Polish military airplanes continuously flying over the German frontier. The Polish Government has been warned that in future the German frontier authorities will use all legal means in their power to bring down and arrest the airmen. While the Poles claim that such transgressions were caused by mistakes, the Germans hold that espionage is being attempted from the air.

Looking Back 25 Years.

The European department of the Y.M.C.A. shows more activity than ever. The Secretary is arranging a launch picnic for Monday (Bank Holiday). The bathing-parties are very popular. Mr. D. K. Moss is planning a series of bi-monthly social entertainments for next Autumn. Mr. H. Sykes is organising a glee club, the recent visit of the Westminster Glee Party having awakened some members to the possibility of the human voice. The librarian is happier for recent additions to his stock; extra tennis courts east of the polo-ground are being prepared; and the number of boarders is increasing. The Y.M.C.A. is a recognised power in the Colony.—*Hong Kong Daily Press*, June 9, 1905.

Looking Back 50 Years.

The Cantonese dialect is called by Chinese *Tong-she*, meaning simply the language of *Tong Kwok* or the Kingdom of Tong, the name of one of the ancient kingdoms into which China was formerly divided; and its language, now termed by foreigners the Cantonese dialect, is said by many Chinese to be the oldest and the most pure, and in its sound to more nearly reflect the value of the modern dialects in China. Although Cantonese has been, comparatively speaking, somewhat neglected by our philological savants, the dialect contains many striking expressions the exact similarity of which both in sound and signification are the same in modern English. For instance, we have *cheu*, to masticate; *si-tiu*, flow away; and many others which are exactly similar in both sound and signification to a Chinaman where some person was to be found. He answered me in the words of Cain:—"Am I his keeper?" This is only one of the very many Biblical expressions in common use amongst the Chinese.—*Hong Kong Daily Press*, June 9, 1900.

ROUMANIA'S KING.

PRINCE CAROL
PROCLAIMED.

[THROUGH REUTER'S AGENCY.]

BUCHAREST, June 8.
The National Assembly has proclaimed Prince Carol King of Roumania.

DRAMATIC RETURN OF
EX-PRINCE CAROL.

[THROUGH REUTER'S AGENCY.]

BUCHAREST, June 7.
Ex-Crown Prince Carol has arrived here.
He was interviewed by his brother Nicholas and the Premier M. Maniu, who are both members of the Regency Council.
An emergency meeting of the Cabinet considered the question raised by ex-Prince Carol's return, after which the Regency Council met, presided over by M. Maniu, when the members of the Cabinet were also present.

BUDAPEST, June 7.
Ex-Prince Carol arrived at Cluj, Transylvania, by the air mail yesterday evening, when he donned a general's uniform, and then proceeded to Bucharest, where he arrived two hours later and proceeded to the Royal Palace, where he was received by the Minister of the Interior and his mother, Queen Maria. He crossed the frontier at midnight to go to Oberammergau to see the "Passion Play."

Divorce to be Annulled.

BUDAPEST, June 7.
According to messages from Bucharest, it is expected that the two Houses of Parliament will assemble on June 8 as a National Assembly in order to proclaim ex-Prince Carol King, and simultaneously the Supreme Court will annul ex-Prince Carol's divorce from Princess Helene in order that she may ultimately be crowned Queen. For the present the boy King Michael will be recognised as the Crown Prince.

Cabinet Disagrees.

BUCHAREST, June 7.
The Cabinet has resigned owing to a disagreement among the members regarding the course to be followed owing to ex-Prince Carol's return.

The Regency Council charged the Foreign Minister, M. Mironescu, with the task of forming a new Ministry, which, it is anticipated, will be sworn in to-night.

New Cabinet Formed.

LATER.
M. Mironescu formed a new Government within an hour of the resignation of the Maniu Cabinet.

Royal Prodigal's Return Staged.

BERLIN, June 7.
It is reported from Bucharest, that M. Maniu and Prince Nicholas were aware of ex-Prince Carol's intended arrival, but not the Queen Mother.

The National Assembly is specially meeting to-day to discuss ex-Prince Carol's rights to the throne, which were cancelled by law on January 4, 1926.

Political circles expect that ex-Prince Carol will replace Prince Nicholas in the Regency.

All is quiet throughout Roumania. Ex-Prince Carol's return has been enthusiastically received by the army, while the general public are not the least surprised, and they have no doubts that M. Maniu is responsible for his return.

BUDAPEST, June 7.
Ex-Prince Carol arrived privately in a chartered aeroplane at the military aerodrome, where he was ceremoniously welcomed.

His impending return was announced in the Chamber yesterday evening and evoked loud cheers from most of the Deputies.
Two regiments formed a guard of honour outside the Palace in Bucharest, where he was received by Prince Nicholas and met by M. Maniu, Minister of the Interior, and the Chief of Police.

Among the problems demanding solution is ex-Prince Carol's attitude towards his wife, Princess Helene, his mother, and little King Michael.

It is understood that Princess Helene does not desire to place obstacles in ex-Prince Carol's way, but is disinclined to resume life together.

Most of the newspapers express satisfaction at ex-Prince Carol's return.

Lisbon, June 7.

An unknown foreigner shot the German Minister (Dr. von Baligand) with a revolver as he was leaving the German cruiser Koenigsberg, which is at present visiting the port with other German warships.

The German Minister was severely wounded.

LATER.

The German Minister had entered his motor-car following a visit to the cruiser, when a tall, wild-looking man dashed forward, and fired four shots, two of which entered the Minister's head and two others pierced the hat of a Counsellor who was sitting beside him.

The police seized the assailant, who was found to be a 31-year-old German-Polish sailor, named Franz Biechowski.

Questioned by the police, Biechowski made the amazing statement: "I shot him to show that I was not mad." He said that he had decided to kill an important person in order to draw public attention to the fact that he was sane.

Biechowski was interned for two years in a German lunatic asylum, from which he escaped in 1921. He came from Madrid to Lisbon, and on hearing of the visit of the German naval squadron, he decided to carry out his murderous plan. He saw a motor-car bearing the arms of the German Legation, and he decided that it must contain somebody important. He immediately fired. He did not know that it was the German Minister, but when he was told the victim's name he said he was glad that he had committed a sensational crime which must be discussed.

'VARSITY' TRAGEDY.

VERDICT OF INQUEST

JURY.

[THROUGH REUTER'S AGENCY.]

LONDON, June 8.

The inquest was held to-day on the three victims of the Cambridge University tragedy of Tuesday last, when a first-year undergraduate named D.N. Potts shot dead Professor Alexander Wollaston, his tutor, then shot Detective Sergeant Willis (who later succumbed), and finally shot himself.

The jury returned a verdict of murder and suicide whilst of unsound mind.

The Coroner expressed the opinion that Potts, who was about to be arrested for the theft of a pistol, was temporarily demented after the strain of being away from the University without leave for ten days.

Queen Marie Surprised.

VIENNA, June 8.

Queen Marie, en route to Oberammergau, received the Roumanian Charge d'Affaires, who informed her of ex-Prince Carol's return.

The Queen, who was visibly surprised, declared cryptically: "As his mother I am very glad. I shall always stand on the side of my people."

Sudden Capture.

PARIS, June 7.
Ex-Prince Carol's rupture with Madame Lupescu was rather sudden, as ten days ago they were staying at his chateau in Normandy. He informed his friends five days ago of the breach of relations, but it is known that he had long planned a return to Roumania.

SOVIET ANTI-BRITISH
PROPAGANDA.LABOUR GOVERNMENT'S
ATTITUDE.

[THROUGH REUTER'S AGENCY.]

LONDON, June 8.

The House of Commons has adjourned for the Whitsuntide Recess until the 17th instant, after a debate on Russia, raised by the Conservatives.

Mr. Arthur Henderson, replying, said it was vitally important to facilitate trade between ourselves and countries where there were potential markets. He declared that the breaking off of relations would not alter the position regarding propaganda in the slightest.

[BRITISH WIRELESS SERVICE.]

Trade's the Thing.

LONDON, June 8.

Continuing, Mr. Henderson said that to outlaw a country like Russia would have no effect upon European or world peace. He did not think anyone would dare to challenge that. Supposing the Labour Government had broken off connections with Russia, it might have stopped the flow of orders that were beginning to come in and which were likely to come in in increasing degree for a few months.

He was not going to try to persuade the House that propaganda was not going on, but he had to bring the propaganda home to the Soviet Government before he could take action. If this or any other Government at this stage protested to Russia on the question of propaganda without being satisfied that the Russian Government were responsible for instigating or financing it, they would not be worthy of their position, and so far as he was concerned, he would not be a party to the Government taking such a step.

While the Government had responsibility and must consider Russia in its relation to world peace and British trade, they must be the judges in the first instance of what had happened. The Government had, moreover, set up machinery in connection with this matter. Having set up this machinery, they would at the right time take appropriate action. One would have thought that the mere fact that the Government had indicated their dissatisfaction with the present position and set up that machinery would have given satisfaction to members of the House. The result that they all desired was to bring about a cessation of propaganda and satisfy themselves if it continued that a Power with whom they were in friendly relations was not responsible. He asked the House to continue its confidence. They were determined that the machinery they had set up should test all information.

SERIOUS SITUATION.

[THROUGH REUTER'S AGENCY.]

CALCUTTA, June 7.

Two police and one officer are reported to be missing or dead as the result of a serious riot at Ghoseghat, in the district of Midnapore, on June 3.

Villagers are reported to have attacked a party of police and removed their uniforms and arms.

It is understood that 17 were injured at Balisai, Midnapore, on the 6th instant.

The police, following a fruitless lathi charge, fired on 1,500 volunteers who were attempting to manufacture salt.

The Inspector-General of Police in Bengal left for Midnapore with reinforcements owing to the seriousness of the situation in the district.

GANDHI'S CAMPAIGN
UNTIMELY.

[THROUGH REUTER'S AGENCY.]

BOMBAY, June 8.

Shankatani, who was one of Gandhi's right-hand men in the 1921 non-co-operation movement, has condemned Gandhi's campaign as being uncalled for, untimely and ill-conceived, it having raised a wall between Hindus and Moslems.

He said that Congressmen had so far failed to make any impression on the Government and were now making efforts to drag in the Moslems.

He gave an assurance that Congressmen would soon be disillusioned.

CANTON HARBOUR
DISASTER.CARGO OF GASOLINE
BURSTS INTO FLAMES.

[FROM OUR OWN CORRESPONDENT.]

CANTON, June 8.

A sad disaster occurred on Canton Harbour off Fong Tsouo yesterday morning at 8.30 when a big sampan with 4,000 cans of gasoline on board caught fire, involving a loss of two lives.

There is some dispute as to the exact cause of the conflagration. Some believe it to be due to carelessness of the cook while preparing breakfast; others think that it was due to the friction of the anchor chain being accidentally rubbed against a leaky can of gasoline when it was being pulled up.

At any rate, the fire assumed a most serious aspect at the very outset.

It burned with terrific violence, splashing the inflammable liquid in every direction.

Gasoline tanks, the top cover of the sampan, and other things were shot up high into the air with explosions resembling a battery of big guns in action.

A moment later a large area of the Pearl River was covered with a thick layer of burning gasoline.

The tide was receding at the time, and the seething mass of burning sea, aided by the wind, in its wake of destruction soon struck the wooden wharf of the coal godown of the Mitsui Bussan Kaisha, Ltd., and succeeded in burning a part of it.

The fire then came upon several rafts of floating timbers and three other small wooden wharves, completely destroying them.

The fire continued to flow down river, although the flames were decreasing in intensity.

It finally came upon a row of matchboxes belonging to the floating population. Their owners fought the flames as hard as they could, but before the fire could be got under control seven of the matchboxes were completely burned down.

The fire brigade, aided by the water police, fought with the flames heroically almost from the very start.

The Canton Customs House and the Taikoo Company also sent boats to aid in putting the flames out. But gasoline is so inflammable and volatile and its quantity so large that the firefighters were unable to get the fire under control at 2 o'clock in the afternoon, after it had been burning for over six hours.

The small boats nearby got to safety very quickly. But several boatmen, actuated by a desire to get some of the brand new tin cans floating down river, rowed back to the scene of destruction to try their luck. Not only did they fail, but their boats caught fire and burned. They barely made good their escape.

The big sampan carrying the gasoline was blown up and sunk. It had on board at the time six junks, all of whom excepting two were at the stern. These at once jumped into the river and swam to safety. The other two, the owner of the sampan and his grandson, were burned to death.

The loss has been estimated at \$80,000.

FIRST V.R.C. NIGHT FETE.

ENJOYABLE PROGRAMME OF EXCELLENT SWIMMING.

LAWRENCE WINS THE 50 YARDS OPEN RACE.

In spite of the inclement weather, the first Night Fete held by the V.R.C. on Saturday was a complete success. A very large number turned up and thoroughly enjoyed the excellent programme provided. The swimming was of a very high order and all the races ended with an exciting finish.

ENTHUSIASTIC MEMBERS' RACE.

First on the programme was the members' race, which was swum amidst great enthusiasm. In this event a welcome return to competition swimming was seen in the person of George Jack, one of the champions of former years. However, the handicaps was too great for the scratch men and the race went to the limit men, who put up very good times.

The ladies' race drew four competitors, namely, the Misses Phyllis and Doris Hunt, Miss V. Allen and Miss Maude George. Miss George started from scratch, but failed to catch Miss Doris Hunt, who came in winner easily in 38 seconds. Miss Doris Hunt is showing very promising form this year.

Pillow Fight.

Followed the humorous pillow fight in which Luiz Soares practically "smoked" his way to victory, disposing of his opponents with single blows which sent them falling into the bath. In this event the spectators took part and cheered their favourites on to victory.

Graceful Diving.

The diving event was very spectacular. Close competition was witnessed between Roza (the champion), Jack (an ex-champion) and Figuereido. Dives were made from the springboard and the high platform, 30 feet above the bath. In the latter event the divers looked very graceful as they leaped into the illuminated bath in perfect swallow dives. The event went to Roza, who followed with an exhibition of fancy diving, being heartily applauded by the audience.

Open 50 Yards.

In the first heat of the open 50 yards, Lawrence, Paget and Foraita came to the line. Lawrence won his heat, beating Paget by half a length, the spectators cheering with great gusto. In the second heat, Gittins led the field to win very closely from Jack. In the final, a supreme tussle was seen between Lawrence, Gittins and Paget, the former winning by just a touch in 26.2/5 seconds.

Team Race.

Followed the most exciting event of the evening—the team race. Five teams came to the start—the V.R.C., Kowloon S.C., the Army, R.A. and Mr. Spencer's team. Keen rivalry always exists between the V.R.C. and Kowloon, and the spectators cheered their favourite sides. The other three teams swam exceedingly well, but were no match against the swimmers of the other two teams, and ended up in a private struggle between themselves.

Johnston started for the V.R.C. against Kerr for Kowloon and gave the V.R.C. a two lengths' lead. Lawrence and Wittich continued, the latter holding Lawrence all the way.

Foraita and Rasmussen were next to go, but Wittich finished in the path of Foraita, who lost a valuable second "finding room to dive." Rasmussen chased Foraita all the way down the bath and ended up by giving Kowloon a slight lead. Gittins and Paget went on together with Paget slightly in the lead, which he maintained, sending Bliss off in the final against Lyon with a dive to the good. Lyon failed to catch Bliss, who was surprisingly fast and increased his lead, winning for Kowloon by about three lengths.

The race was immensely exciting and the spectators stood in their seats and roared with frenzy. Kowloon won their race and had satisfied their ambition. The Army came home third ahead of the R.A. some lengths behind the V.R.C.

Water Polo Game.

Rasmussen, the Shamen champion, played for the Civilians against the Army in the water polo team. The Army put up a very fine struggle against the strong opposition, and although beaten by five goals to nil, were not disgraced. Rasmussen showed himself to be a very fine player and scored the first three goals in the first half, one with a tricky back-hand shot from the half-line mark which completely surprised the Army goalie, who, incidentally played a fine game.

Kerr scored the fourth goal early in the second half and Lawrence put on the fifth just before the final whistle.

The prizes were distributed in the ball-room by Mr. W. Logan (vice-chairman), who congratulated the swimmers and paid a tribute to the support given to the V.R.C. in spite of the weather.

Dancing, to the music of the Lyric Orchestra, was then enjoyed until an early hour.

Results.

50 Yards Handicap (Members).—1st Heat: 1st, C. Figuereido (Time: 31 secs.); 2nd, G. A. Jack (Time: 25.2/5 secs.). 2nd Heat: 1st, G. Gutterres (Time: 30.2/5 secs.); 2nd, A. McGrann (Time: 31.2/5 secs.).

DAVIS CUP CONTEST.

AUSTRALIA LEAD OVER ENGLAND.

[THROUGH REUTER'S AGENCY.]

EASTBOURNE, June 8. In the third round of the Davis Cup competition, England and Australia met to-day.

The match is expected to yield the potential finalists in the European zone against America.

Australia made an excellent beginning, winning the first two singles, although both were keenly contested.

Crawford (Australia) beat Lee (England) 3/6, 6/2, 4/6, 6/2, 6/2. Hopman (Australia) beat Gregory (England) 6/6, 6/4, 6/7.

England Wins.

In the Davis Cup competition played at Eastbourne, Gregory and Collins beat Hopman and Crawford 6/6, 10/8 and 6/2.

NORTH LONDON CHAMPIONSHIP.

[THROUGH REUTER'S AGENCY.]

London, June 7. In the final of the North London tennis championship played at Stamford Hill, Miss Ryan beat Miss Sarah Paley 6/1 and 6/6.

LAWN BOWLS.

WEATHER UPSETS GAMES ON SATURDAY.

ALL FIXTURES POSTPONED.

Much disappointment was caused in lawn bowls circles on Saturday when the whole of the afternoon's programme had to be postponed. It was the first time this season that all the fixtures had to be entirely left over, but the condition of the greens after the earlier rains and more showers in the afternoon deprived players of even a practice game.

The important items on the card were the meetings of Craigengower and Civil Service seniors and the two unbeaten teams in the junior division, the Bowling Green Club and Civil Service. The return matches are scheduled for July 26, one week before the last series, on the card, and the postponed matches will be taken in hand then. This will mean, provided the weather does not cause further interference, that the home and away matches will follow close on each other.

Next Saturday's programme is as follows:—

Division I.

Taikoo R.C. v. Craigengower. Civil Service v. Kowloon C.C. Police v. Kowloon Dock C.C. Recreation v. Kowloon Bowling G.C.

Division II.

Craigengower v. Taikoo R.C. Kowloon C.C. v. Civil Service. Kowloon Bowling G.C. v. Recreation. Electric R.C. v. Yacht Club.

RAIN SPOILS TENNIS.

ALL MATCHES POSTPONED.

NEEDLE MATCH AT SOOKUN-POO ON WEDNESDAY.

Owing to the heavy rains, all the tennis matches which were down for decision over the week-end were postponed. There will, however, be some interesting games during the week, the most interesting of which should be the Chinese-Indian fixture in the "B" division, which is scheduled to take place at Sookun-poo on Wednesday. There is very little to choose between the teams. An excellent game should result, and the winners will probably carry off league honours in this division. There will no doubt be a large number of tennis fans to watch the game.

U.S. BASEBALL.

ROGERS HORNSBY IS PUT OUT OF PLAY.

New York, May 30.—A day full of double-headers put Brooklyn well ahead of St. Louis in the National League, with percentages of .641 and .590, respectively, while the Senators had a bare lead over the Athletics, with standings of .650 and .650.

The first Washington-Philadelphia game ran out to 13 innings, when Simmons of the Athletics tied the score in the ninth by hitting a home run with two men ahead. McNair singled in the thirteenth and scored the winning run for a 7-6 victory for Philadelphia. In the second contest, the Athletics again won, but by a score of 15-11, though the Senators got 16 hits to the Athletics' 14.

Detroit's Tigers won twice over the Indians at Cleveland, the first time by 5-2 and the second by 9-6. The initial contest was marred by three Detroit errors and two for Cleveland, but in the second game both teams kept a clean slate, with Detroit making a total of 17 hits in the second game.

The Yankees nosed out a 6-5 win over Boston and followed it with a 7-3 victory, Babe Ruth whacking a home run in the first inning of the first game off Listade. The Yanks got 10 hits to Boston's 10 and committed the only two errors of the game. In the second contest, Ruth failed to make a hit, but he scored twice and once stole a base.

Chicago's White Sox split a double-header with the St. Louis Browns, taking the first game at 7-4, but losing the second by 4-3. Six Sox errors in the second gave ample reason for losing, though the Sox made 11 hits to St. Louis' nine.

National League Games.

In the National League, the Brooklyn Dodgers won twice over the Phillies, by scores of 11-1 and 11-9. Klein of the Phillies got a home run. Brooklyn's margin in the second game was reduced by three errors, but, as it was a case of the first-place team meeting the tail-enders, neither game was at all in doubt.

Cincinnati and Pittsburgh split a double-header, the first going to the Reds by 9-1 and the second to the Pirates by 7-6. The Pirates made all the errors that were made, running up three in the first game and two in the second. Hargreaves of the Pirates singled and scored Suhr in the second game.

Chicago's Cubs won over the Cardinals twice, by 2-0 and 9-8. A pall of gloom hung over the Cub camp at the close of the day, however, because of the fact that Rogers Hornsby had been put out of play for some weeks by a broken ankle which he suffered while sliding in to third base in the initial contest. The first game was errorless; in the second, each team made three errors.

The Boston Braves nosed out the Giants twice by identical scores of 6-5. In the first game, each team made 10 hits, and in the second each made 12 hits, with one error apiece in each game.

Fox Makes Eleventh Homer.

New York, May 31.—Winning over the American League leaders, the Senators, to-day, the world champion Athletics tied for first place with a percentage of .638, encouraging supporters who have confidently forecast that the Athletics will bring in another pennant this year. Meanwhile, the Brooklyn Dodgers were being lowered to a .625 rating in the National Circuit, but the St. Louis Cards, in second place, were also defeated, leaving them with a percentage of .575, while the Cubs ran third with .548.

Fox of the Athletics made his eleventh home run of the season in the second inning of the Washington game, helping to net four tallies. Rube Walberg fanned four. Totaling 10 hits to the Senators' five, the Athletics won by 7-3.

Winning by 5-2 over the Red Sox at New York, the Giants pushed up their percentage to .584, although the Cleveland Indians, who beat Detroit by 7-4, ran close behind in third place with .581. The Giants committed the one error of the game, but they made 11 hits to eight for Boston. Cleveland won by virtue of Detroit's three errors and in spite of weak batting, making but seven hits to the Tigers' 10.

In the National League, the Phillies went to Brooklyn and trimmed the Dodgers by 3-1, although they made but eight hits to Brooklyn's 10. Whitney, Thewissen, and Klein did effective slugging for the Phillies. Bissonette displayed his usual hard-hitting ability by whaling out a home run for the Dodgers.

It looked like a trimming for the Cubs, playing in Chicago against the Cardinals, for, when the ninth inning began, the Cards were ahead by 5-3. Then, with two men out, the Cubs rallied and made three runs to nose out a 6-5 win. Wilson and Cuyler each batted in two men in the course of the game.

Playing at Boston, the Giants lost to the Braves by 3-2, although they got nine hits to Boston's seven. They also made two errors to Boston's one.

The Cincinnati Reds beat the Pirates at Pittsburgh by 10-1 in another game where the hits counted less than the errors. The Reds made but 10 of the former and one of the latter, while the Pirates, with 13 hits, made four costly errors.

New York, June 1.—The world champion Philadelphia Athletics to-day finally toppled the Senators from first place in the American League by beating them by 9-8 and making their percentage .667 as compared with the Senators' .643. In the National League, the Brooklyn Dodgers and the Chicago Cubs both won, leaving the Dodgers in first position with .634 and the Cubs in second place with .558.

Williams of the Athletics made a home run in the course of a slugging game with the Senators at Washington. The Athletics made 12 hits and nine runs, while the 15 Washington hits netted but half a dozen points, the Senators making two errors to one for the visitors.

The Boston Red Sox, aided by a home run by Berry and in spite of homers by Ruth and Cooke of the Yankees, beat the Yankees by 7-4 at New York.

Detroit got nine hits to Cleveland's six, but still managed to lose by 3-2. A home run was contributed to the Indians by Morgan, and all three of the Cleveland runs went over the plate in the third inning.

The White Sox, profiting by two errors, beat the Browns by 6-5 at St. Louis. The seventh inning was the eventful point of the game, with Jolly and Reynolds both making home runs.

Two double-headers, both of which ran out to great length and with the second game curtailed in each instance, featured to-day's proceedings in the National Circuit. Playing at Boston, the Giants beat the Braves twice, by scores of 9-4 and 16-3, respectively, the second game being halted in the seventh inning because of Boston's Sunday law. Walker, the Giants' pitcher, made a home run in the first game and so did Berger of the Braves. In the second game the Giants broke loose and ran up 12 runs in the third inning, though the Braves countered with another home run by Berger.

Heilmann of the Reds was the hero of a double-header at Cincinnati in which his team won twice. He made home runs in both the first and second games, the initial contest going to Cincinnati by 5-4 and the second being called off in the seventh inning by agreement, with the score at 7-1, when it looked as though the teams would have to play all night to get in the full nine innings. Tripp of the Reds also homered in the second game.

Frederick and Herman of the Brooklyn Dodgers both made two home runs against the Phillies at Brooklyn, while Bissonette made one circuit smash. This enabled the Dodgers to romp home to an easy 10-2 victory, in spite of two errors.

Four errors by the Pittsburgh Pirates did them no good against the Cubs at Chicago, and neither did two home runs by Wilson of the Cubs and one by Hartnett. Hemsley and Grantham of the Pirates also went into the homer column. The Cubs won by 16-4.

COUNTY CRICKET MATCH RESULTS.

SEVEN MATCHES, INCLUDING AN AUSTRALIAN FIXTURE, COMPLETED.

TOURISTS COMMENCE ANOTHER MATCH AGAINST CAMBRIDGE UNIVERSITY.

ENGLISH TEST TEAM SELECTED.

[THROUGH REUTER'S AGENCY.]

Six centuries were scored in first-class cricket matches, which concluded on Saturday. In their meeting at the Oval, Sussex staged a wonderful recovery after they had been dismissed for a paltry 72 by the Surrey bowlers. They scored 454 in their second innings to win the match. Decisions were gained in all but one match, where the scores indicated a draw to be a fair result.

Following on their victory over Middlesex by five wickets, the Australians engaged Cambridge University. On the first day's play the visitors were in a good position, one of their players being prominent in batting and bowling.

The following is a summary of the results up to the end of Saturday and those who shared in the batting and bowling honours:—

Yorkshire beat Hampshire by an innings and 100 runs.
Lancashire beat Oxford by an innings and 39 runs.
Kent beat Essex by 302 runs.
Glamorgan beat Derbyshire by 29 runs.
Surrey won on the first innings over Sussex.
Cambridge drew with Somerset.
The Australians beat Middlesex by five wickets.

ENGLAND'S FIRST TEST MATCH.

THIRTEEN PLAYERS IN THE SELECTIONS.

[THROUGH REUTER'S AGENCY.]

LONDON, June 8.

It was officially announced on Friday that England's team for the first Test match against the Australians, which will start at Nottingham on June 13 and last for four days, will be selected from the following 13 players:—

A. P. F. Chapman (Kent, Captain).
G. Duckworth (Lancashire).
K. S. Duleepsinhji (Sussex).
W. R. Hammond (Gloucester).
E. Hendren (Middlesex).
J. Hobbs (Surrey).
H. Larwood (Nottingham).
R. V. Robins (Middlesex).
H. Sutcliffe (Yorkshire).
M. W. Tate (Sussex).
E. Tyldesley (Lancashire).
Jack White (Somerset).
F. E. Woolley (Kent).

YORKS. v. HAMPSHIRE.

EASY WIN FOR YORKS.

This match was played at Bradford and resulted in a win for Yorkshire by an innings and 100 runs.

Batting first, Yorkshire ran up the big total of 478 runs for the loss of nine wickets when the innings was declared closed. Robinson was the highest scorer with 108 runs.

When Hampshire went in, they were unfortunate in finding Robinson in good form with the ball and were all out for 169 runs. Robinson's figures were seven wickets for 25 runs. Forced to follow on, Hampshire were still 100 runs in arrears when their last wicket fell.

Mead played a good innings for 91 not out, while Robinson again did good work with the ball and took 4 wickets for 60 runs. The scores were:—

Yorkshire, 1st innings (9 wickets, declared) 478.
Robinson, 108.
Hampshire, 1st innings 169.
Robinson, 7 for 25.
Hampshire, 2nd innings 200.
Mead, 91 not out.
Robinson, 4 for 60.

OXFORD v. LANCES.

UNIVERSITY LOSE.

Playing at Oxford, the County team beat Oxford by an innings and 39 runs.

Oxford batted first and made 137 runs, Booth taking six wickets for 49 runs for the winners.

Lancashire then occupied the wicket and their effort realised 403 runs for seven wickets. Watson was their top-scorer with a well-played 135, while Taylor's contribution was 107 not out. In their second innings the Dark Blues made a better showing and put together 227 runs before the last wicket fell.

The scores were:—
Oxford, 1st innings 137.
Booth, 6 for 49.
Lancashire, 1st innings (7 wickets, declared) 403.
Watson, 135.
Taylor, 107 not out.
Oxford, 2nd innings 227.

SURREY v. SUSSEX.

LANGRIDGE'S DAY OUT.

Played at the Oval, Surrey scored a first innings' win over Sussex.

Sussex took first knock, but were all out for the poor score of 72 runs. Then Surrey occupied the wickets, but they did not do too well either, and the team were sent back to the pavilion when only 178 runs were on the board. Langridge took five wickets for 86 runs.

In their second knock, however, Sussex made amends for their first innings' failure and compiled 454 runs for seven wickets, and declared. Of this total, Cook claimed 122 and Langridge 159 not out.

Surrey were immediately infected by this run-getting fever, and put on 217 for 4 in their second knock, and Hobbs played a fine innings for 63. The scores were:—

Sussex, 1st innings 72.
Surrey, 1st innings 178.
Surrey, 2nd innings (4 wickets, declared) 454.
Cook, 122.
Langridge, 159 not out.
Surrey, 2nd innings (4 wickets, declared) 217.
Hobbs, 63.

(Continued on next Column.)

FRIENDLY CRICKET.

"DAILY PRESS" v. HONG KONG NOMADS.

A thoroughly enjoyable match was played on the University ground, Pokfulam (kindly lent for the occasion) between the Hong Kong Daily Press and the Hong Kong Nomads yesterday, which resulted in a win for the latter by 69 runs.

Winning the toss, the Daily Press elected to bat, but against some steady bowling by A. S. Sufiad (5 for 19) and Ricketts (3 for 17), they were soon out for the total of 87 runs.

The Nomads lost their first two wickets cheaply, and at one stage it appeared as though the "D.P." would be able to win, but going in late Bebbington (47) and Ismail (38) pulled the game out of the fire for the Nomads, who went on to make 156 runs before their last wicket fell.

The scores were:—
Hong Kong Daily Press 87.
Sufiad, 5 for 19.
Ricketts, 3 for 17.
Hong Kong Nomads 156.
Bebbington, 47.
Ismail, 38.

CAMBRIDGE v. SOMERSET.

MATCH DRAWN.

This match was played at Cambridge, and after both teams had made a good start the game resulted in a draw.

Somerset batted first, and, thanks to a fine innings by Case, who made 90 runs, totalled 323. The Undergraduates replied with 283. Grant was unfortunate in failing to reach the magical three figures by only two runs. Lee took six wickets for 73 runs.

Running up 176 runs for the loss of four wickets in their second innings, Somerset declared at this total, and the Light Blues had reached 124 for two wickets when stumps were drawn. The scores were:—

Somerset, 1st innings 323.
Case, 90.
Cambridge, 1st innings 283.
Grant, 98.
Lee, 6 for 73.
Somerset, 2nd innings (4 wickets, declared) 173.
Cambridge, 2nd innings (2 wickets) 124.

MIDDLESEX v. AUSTRALIANS.

TOURISTS WIN.

The Australians defeated Middlesex by five wickets on the last day of the meeting at Lord's.

Middlesex opened with a score of 103 in their first innings, the Australians replying with 270, of which Kippax scored 102.

On Saturday the County team carried their overnight score of 150 for five wickets (Hendren then having scored 80 runs not out) to 287 when the last wicket fell. Hendren continued to worry the bowlers until he was beaten when he had made 133. The Australians gathered the necessary runs for victory at the expense of five wickets. The scores were:—

Middlesex, 1st innings 103.
Hornbrook, 7 for 42.
Australians, 1st innings 270.
Kippax, 102.
Allen, 6 for 77.
Middlesex, 2nd innings 287.
Hendren, 133.
Australians, 2nd innings (5 wickets) 121.

CAMBRIDGE v. AUSTRALIANS.

FIRST DAY'S PLAY.

On Saturday, the Australians visited Cambridge University and excelled in both departments. McCabe went out to capture four of the University wickets for 25 runs, and in batting he was left with 62 not out at the close, which gave the Australians 179 for two wickets. Woodfull was not out with 62 to his credit. The scores at the first day's play were:—

Cambridge, 1st innings 145.
McCabe, 4 for 25.
Australians, 1st innings (2 wickets) 179.
Woodfull, 61 not out.
McCabe, 62 not out.

MATCHES IN PROGRESS.

The following matches are now in progress:—

Lord's—Middlesex v. Sussex.
Leyton—Essex v. Worcestershire.
Derby—Derbyshire v. Warwick.
Southampton—Hampshire v. Kent.

Taunton—Somerset v. Gloucester.
Nottingham—Notts v. Surrey.
Leeds—Yorkshire v. Lancashire.
Leicester—Leicester v. Northants.

Cambridge—Cambridge v. Australians.

EASTERN NEWS IN BRIEF.

PARS FROM EVERYWHERE.

Three hundred rose trees, comprising 35 varieties, have been shipped from British Columbia to the British Legation at Peking to adorn its famous gardens.

Lee Ah Chah, 33, a fireman in the Glenshiels, lying in King George V. Dock, was charged at East Ham Police Court, on May 7, with illegally importing 14 ozs. of raw opium, and sent to gaol for one month with hard labour. The Bench said they would recommend his deportation.

A French soldier, whose name the military authorities in Shanghai declined to disclose, was reported to have shot himself in the Rong Frelupt camp last week. He is said to have been suffering from nervous strain and to have used an army rifle in an attempt to commit suicide.

On June 1, about 40 members of the Shanghai Water Police of the Public Safety Bureau seized five dragon boats and arrested about forty men forming the crew on board these boats at Yang Ka Do, Pootung, on the ground that the Dragon Boat would resuscitate superstition among the people.

A real triumph of linotype composition is the edition de luxe of the first "blue book" issued by the Chinese National Government. This book, which contains treaties set in 11 languages by Chinese operators, is on view at the exhibition of modern printed books, opened on May 12 at the Imperial Institute, South Kensington, by the Lord Mayor, Sir William Waterlow.

A Rengo message from Tokyo states that, in accordance with the provisional commercial and amity agreement signed recently by Japan and Egypt, the Japanese Government has decided to open a Legation at Cairo, and the appropriations in connection with the opening of the Legation have been put in the next year's Estimates. The Foreign Office is also contemplating the opening of a Consulate in Mombasa, in Kenya.

A stabbing affair is reported in the Shanghai Press, following a quarrel between two employees of the Yoneda Co., 1193, Hanbury Road. One man is alleged to have stabbed his fellow shop-assistant, Nakano, in the abdomen with a knife. First aid was given to the injured man at the Shinjokai Hospital on Boone Road, and he was later removed to the Foo Ming, where an operation was performed: the condition of the patient is grave.

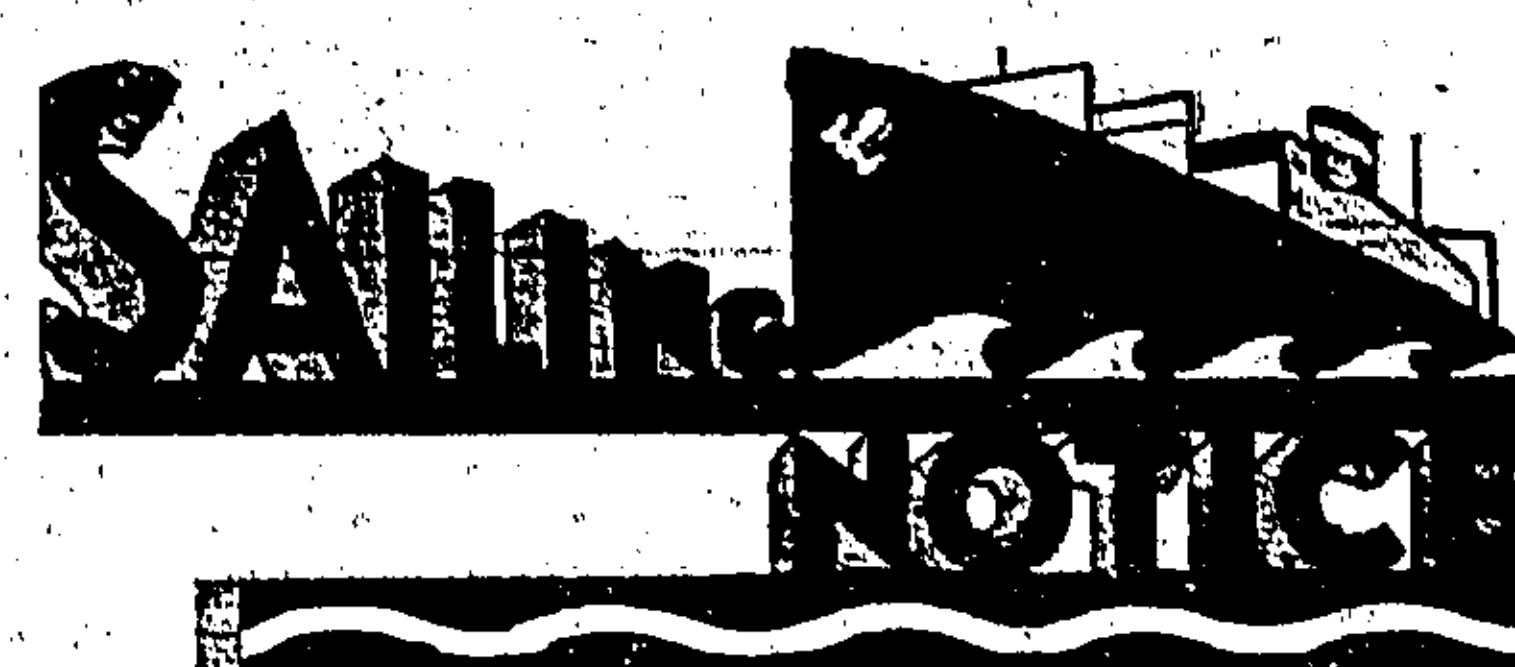

Beginning a campaign to raise \$100,000 to square a legacy of debt left by its war work the Y.M.C.A. asks how many people remember that there are at present nearly 3,000 men in the Shanghai Defence Force? and adds that in looking after these men it has spent \$18,000. Major-General Sir John Duncan, first commander-in-chief of the Shanghai Defence Force (at whose request the Y.M.C.A. unit was sent to Shanghai), will canvass the Marylebone area.

The Hankow Kuomintang Headquarters has submitted a proposal to the local military authorities to prohibit all armies from commandeering ferry-boats for troop transportation, reports the Hankow Herald. The petition says that at present ferry service is being regularly maintained, to the great convenience of the people of Yangtze, and the military authorities should co-operate with the Reconstruction Bureau in effecting further improvements.

A story is being circulated in Singapore to prove that of those who frequent racecourses not all are the dishonest ruffians the moralists are inclined to make out. A winner was paid out at the tote and returned two races later to remark, handing over the money, that he had been paid \$80 too much! But there is, alas, a sad end to the story, for the cashier being asked whether the gentleman was a European, replied mournfully: "Oh, no, they never come back."

Alleging that they were being "squeezed" in connection with their wages, the caddies at Seekingjao went on strike last week-end. About 300 people who had anticipated a pleasant morning's golf were temporarily inconvenienced in consequence. However, after Mr. Colman, secretary of the Shanghai Golf Club, had appealed to them to caddy for themselves they all did so quite cheerfully. Seeing that the members and their friends were carrying on despite their absence, the caddies approached the committee in the afternoon and offered to resume work unconditionally.

It is understood that the decision of the Shanghai Golf Club was made in view of the entirely unjustified strike the caddies would not be employed for one week. This means that they will have no income for that period. It is hoped that this satisfactory action will have a good effect on the situation.

SHARE DUMPING IN NEW YORK.

(REUTERS' AMERICAN SERVICE.)

New York, June 7. Following many weeks of listless operations, the prices on the Stock market crashed down yesterday, and stocks gave way before a persistent "bear" pounding.

A huge volume of stocks was dumped on the market, whose turnover totalled 3,463,000 shares in a two hour session of furious selling.

A number of issues fell seven points, while other more volatile stocks recorded spectacular losses.

One of the most unsettling developments was the announcement that the Exchange had commissioned the Radio Corporation to omit their quarterly earnings from their statement in view of the difficulties presented by capital changes.

Wall Street during the past week has been flooded with bearish rumours, which have helped to bring on to-day's rush of share dumping.

AMERICAN COTTON MARKET.

STATE OF EMERGENCY EXISTS.

(REUTERS' AMERICAN SERVICE.)

New York, June 6.

Acting on the advice of the Cotton Advisory Committee that an emergency exists in the American cotton market, the Federal Farm Board announces the impending formation of a Cotton Stabilisation Corporation, similar to that previously formed for wheat.

It is understood that the Corporation will take over that portion of the 1929 crop surplus now held by co-operative associations.

NAVAL NEWS.

H.M.S. Poseidon, the second of the six submarines of the 1927 programme, has now been completed by the Vickers works, Barrow, and is ordered to Campbeltown for trials. The Proteus was due for completion later in May, and the Pandora in June, which will complete the Vickers-Armstrongs part of this programme. The Phoenix, at Birkenhead, is due for delivery in August; and there only remains the Parthian, at Chatham Dockyard. These six vessels of the "P" class are intended for service on the China Station.

Admiral of the Fleet the Hon. Sir Somerset A. Gough-Calthorpe, G.C.B., G.C.M.G., C.V.O., retired on May 8 from the active list on the completion of the usual period of five years in the highest rank. One of the vacancies created by this advancement has been filled by Vice-Admiral Sir Arthur A. M. Duff, K.C.B., late Admiral-Commanding Reserves, who is promoted to Admiral.

H.M.S. Caradoc, now in the Reserve Fleet at Devonport, is ordered to be commissioned in July to relieve the Castor on the China Station. The Castor belongs to the Third Cruiser Squadron in the Mediterranean, but for some time past has been detached for service in China. She was ordered to leave Hong Kong on May 27 for home, arriving at Devonport on July 16. The Caradoc, completed in June, 1917, served in the Grand Fleet during the latter part of the war, and in 1927 was thoroughly overhauled at Chatham at a cost of about £111,000. From October, 1928, until last January, she served on the America and West Indies Station.

The appointment dates from May 14 of Commander H. E. Morse, D.S.O., from the Marlborough, to be executive officer of the battleship Warspite. Commander Morse was serving in the gunboat Bramble in China when the late War began and received a War appointment to the battleship Triumph, in which he served at the reduction of Kiaochow and at the Dardanelles, until the ship was sunk by submarine on May 25, 1915. Later he took part in the early phases of the Jutland action.
